

Graduation Initiative 2025 Preliminary Progress Update

Are you on track to meet your goals?

2015

2025

calstate.edu/dashboard

In September 2016, the CSU launched Graduation Initiative 2025, establishing ambitious goals to facilitate our students’ path to a high-quality college degree and committing us to eliminate equity gaps between historically underserved students and their peers. When we achieve these goals, the CSU will stand alone as a national leader in student success for the most diverse student body in the nation.

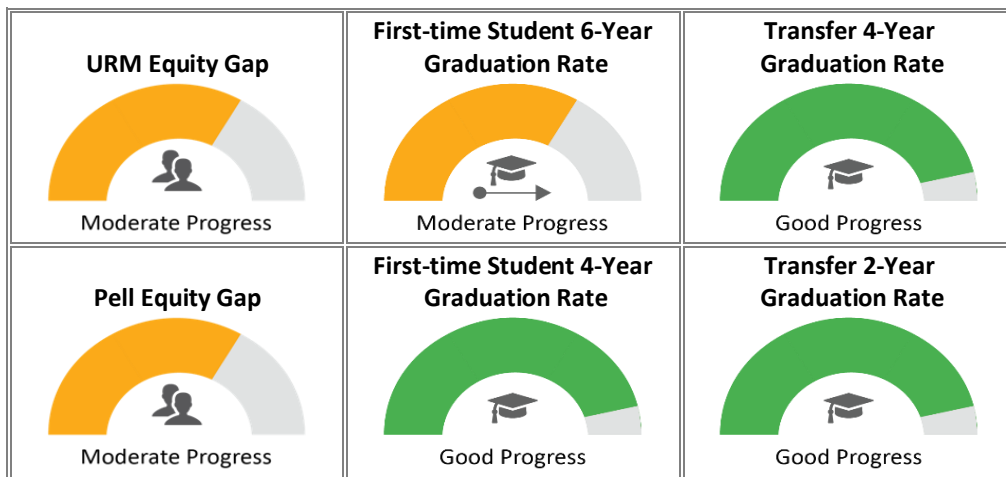

Fulfilling the Graduation Initiative requires us to consistently measure progress and take stock of our efforts to identify barriers that delay or prevent our students’ timely completion of a high-quality degree. To support this process, the CSU Student Success Dashboard (calstate.edu/dashboard) has leveraged degree completion data through summer 2021 to measure system and campus progress toward our 2025 goals. The 2021 graduation rates cited herein may increase very slightly in the coming weeks as campuses submit additional degree counts.

This report offers a preliminary glimpse of how Cal State San Bernardino (CSUSB) is progressing toward its 2025 goals. The formidable challenges associated with the global health crisis have heightened the collective imperative to better support our students and promote equitable opportunities for timely degree completion.

While the Graduation Initiative goals are formally measured against specific student cohorts (e.g., the 6-year graduation rate of first-time students who enrolled in 2019), the intention is to improve our policies and practices to support the success of all students. We encourage you to share this report broadly and engage your campus community in a deeper internal assessment of progress toward meeting your Graduation Initiative goals.

Cal State San Bernardino Progress Summary

Five years into this initiative, CSUSB is making good progress toward half of its goals and moderate progress toward the other half.

For each graduation rate goal, an interim target was set by extrapolating a straight line from the 2010 (6-year first-time students), 2012 (4-year first-time students and transfers), or 2014 (2-year transfers) cohorts to their respective 2025 goals. The current rates (for the 2015, 2017 or 2019 cohorts) were then compared to the interim targets, and the gauges were set as:

- Green if the graduation rate was less than 1 percentage point below the interim target
- Yellow if the graduation rate was between 1 and 3 percentage points below the interim target
- Red if the graduation rate was more than 3 percentage points below the interim target

For the URM and Pell gap goal, the gauges were set as:

- Green if the gap was less than 3 percentage points
- Yellow if the gap was between 3 and 7 percentage points
- Red if the gap was more than 7 percentage points

Underrepresented Minority (URM*) Equity Gap Goal

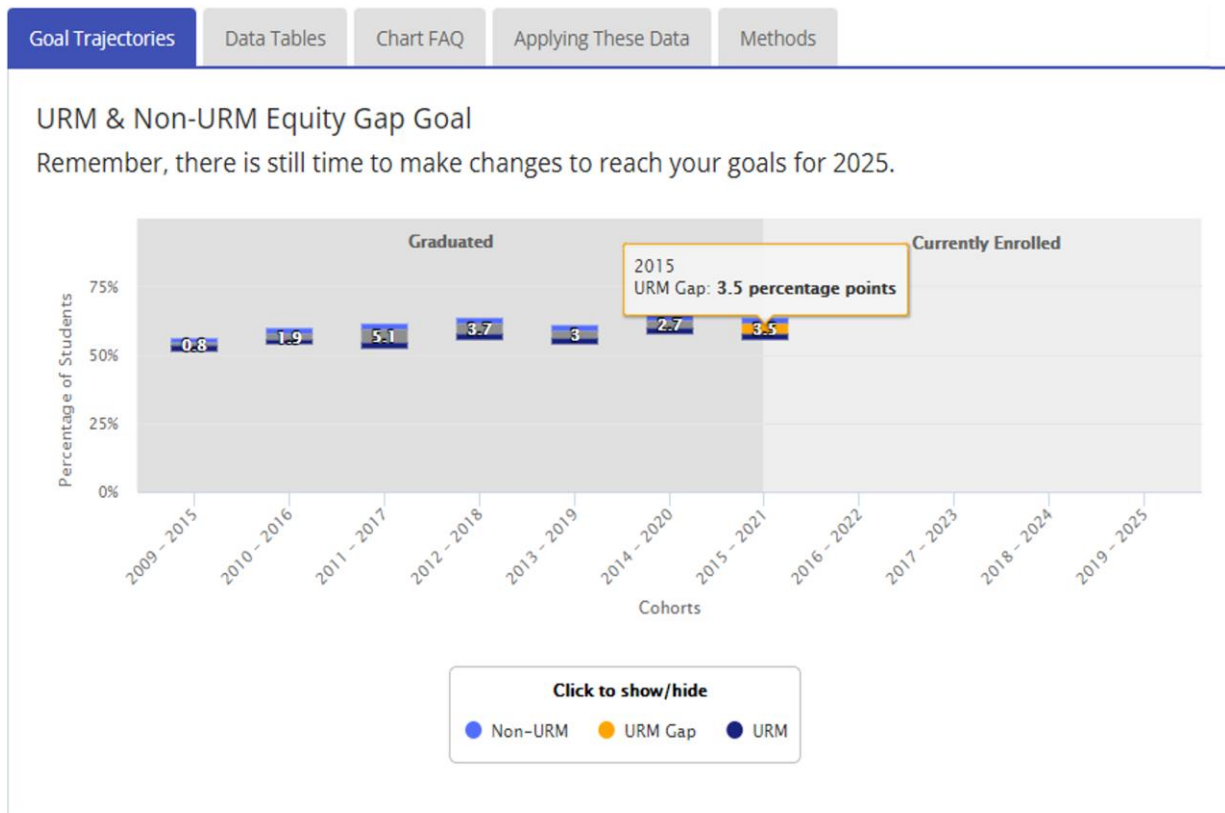

Moderate Progress

CSUSB is making moderate progress toward its 2025 goal of eliminating the gap between the percentage of URM and Non-URM first-time students who graduate within 6 years.

Over the past 3 years, the gap between URM and Non-URM students who graduated within 6 years was roughly 3 percentage points. The preliminary URM equity gap for the most recent cohort (3.5 percentage points) has remained relatively constant over the past 3 years.

Cohort	Grad Rate Gap
2013-2019	3.0 points
2014-2020	2.7 points
2015-2021	3.5 points
2025 Goal	0 points

The fact that CSUSB's URM equity gap is 3.5 percentage points suggests that the university is making moderate progress toward its 2025 goal of eliminating the graduation rate gap between URM and Non-URM students.

*URM (underrepresented minority) students are those who self-identify as African American, Latinx, or American Indian. All other students are classified as Non-Underrepresented Minority (Non-URM).

Underrepresented Minority (URM) Equity Gap Progress for CSU San Bernardino and CSU Campuses

Campus	Current 6-year URM Graduation Rate	Current 6-year URM Gap (percentage points)	2025 6-year URM Gap Goal (percentage points)	Gap Goal Difference (percentage points)

Pell Equity Gap Goal

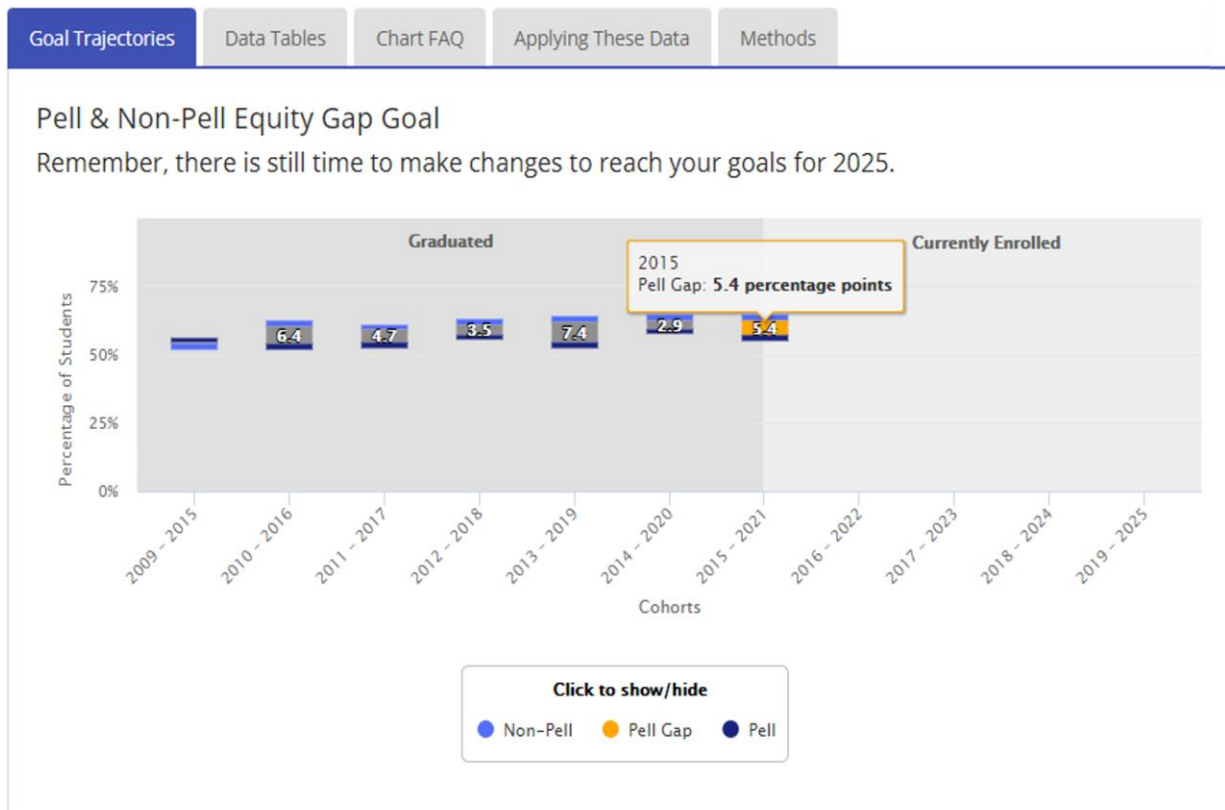

Moderate Progress

CSUSB is making moderate progress toward its 2025 goal of eliminating the gap between the percentage of Pell recipient and Non-Pell recipient first-time students who graduate within 6 years.

Over the past 3 years, the gap between Pell and Non-Pell students who graduated within 6 years was roughly 5 percentage points. The preliminary Pell equity gap for the most recent cohort (5.4 percentage points) has remained relatively constant over the past 3 years.

Cohort	Grad Rate Gap
2013-2019	7.4 points
2014-2020	2.9 points
2015-2021	5.4 points
2025 Goal	0 points

The fact that CSUSB's Pell equity gap is 5.4 percentage points suggests that the university is making moderate progress toward its 2025 goal of eliminating the graduation rate gap between Pell and Non-Pell students.

*Pell students are students who received a Pell grant in their first term of enrollment. All other students are classified as Not Pell.

Pell Equity Gap Progress for CSU San Bernardino and CSU Campuses

First-time Student 6-Year Graduation Goal

Moderate Progress

CSUSB is making moderate progress toward its 2025 goal that 62% of all first-time students graduate within 6 years.

The six-year graduation rate for the first-time student cohort beginning in 2014 was among the highest in CSUSB's history. The preliminary 6-year first-time student graduation rate for the 2015 cohort (57.0%) is less than the interim target (58.8%) set by drawing a straight-line projection from the 2010 graduation rate to the 2025 goal (see dashboard chart below).

Cohort	Grad Rate
2013-2019	55.0%
2014-2020	58.7%
2015-2021	57.0%
2025 Goal	62.0%

The fact that CSUSB's current 6-year first-time student graduation rate is 1.8 percentage points lower than the interim target suggests that the university is making moderate progress toward its goal.

First-time Student 6-Year Graduation Goal Progress for CSU San Bernardino and CSU Campuses

Campus	6-Year 2025 Graduation Goal	Current 6-Year Graduation Rate	6-Year Graduation Rate Interim Target	Difference from Interim Target

First-time Student 4-Year Graduation Goal

Good Progress

CSUSB is making good progress toward its 2025 goal that 30% of all first-time students graduate within 4 years.

The four-year graduation rate for the first-time student cohort beginning in 2016 was among the highest in CSUSB's history. The preliminary 4-year first-time student graduation rate for the 2017 cohort (24.0%) is higher than the interim target (22.2%) set by drawing a straight-line projection from the 2012 graduation rate to the 2025 goal (see dashboard chart below).

Cohort	Grad Rate
2015-2019	18.7%
2016-2020	24.6%
2017-2021	24.0%
2025 Goal	30.0%

The fact that CSUSB's current 4-year first-time student graduation rate is 1.8 percentage points over the interim target indicates that the university is making good progress toward its goal.

Transfer 4-Year Graduation Goal

Good Progress

CSUSB is making good progress toward its 2025 goal that 83% of all transfers graduate within 4 years.

The four-year graduation rate for the transfer cohort beginning in 2016 was among the highest in CSUSB's history. The preliminary 4-year transfer graduation rate for the 2017 cohort (80.2%) is slightly higher than the interim target (80.0%) set by drawing a straight-line projection from the 2012 graduation rate to the 2025 goal (see dashboard chart below).

Cohort	Grad Rate
2015-2019	77.9%
2016-2020	80.4%
2017-2021	80.2%
2025 Goal	83.0%

The fact that CSUSB's current 4-year transfer graduation rate is 0.2 percentage points above the interim target indicates that the university is making good progress toward its goal.

Transfer 4-Year Graduation Goal Progress for CSU San Bernardino and CSU Campuses

Campus	4-Year 2025 Graduation Goal	Current 4-Year Graduation Rate	4-Year Graduation Rate Interim Target	Difference from Interim Target

Transfer 2-Year Graduation Goal

Good Progress

CSUSB is making good progress toward its 2025 goal that 45% of all transfers graduate within 2 years.

Two-year graduation rates for the transfer cohorts beginning in 2017 and 2018 were 43.8% and 56.5%, respectively. The preliminary 2-year transfer graduation rate for the 2019 cohort (48.3%) is substantially higher than both the interim target (40.6%) set by drawing a straight-line projection from the 2014 graduation rate to the 2025 goal and the goal itself (see dashboard chart below).

Cohort	Grad Rate
2017-2019	43.8%
2018-2020	56.5%
2019-2021	48.3%
2025 Goal	45.0%

The fact that CSUSB's current 2-year transfer graduation rate already exceeds the 2025 goal indicates that the university is making outstanding progress!
