Financial Literacy Center:

- March 18: The Financial Literacy Center worked with bank partners: Chase Bank on hosting a Lunch and Learn workshop on credit and the roadmap on finance careers after the college journey. The Lunch and Learn workshop had 14 students in attendance and the workshop focused mainly on credit and students asking questions on how the credit score works and how paying off bills on time can affect the score. This workshop allowed the students to learn more about credit and how making payments on time will have an impact on the credit score. The students were able to ask multiple questions to make sure they had a clear understanding of how credit works and what resources are available to college students. Feedback from the event was as follows: Students were able to ask multiple questions to the representative of Chase Bank even after the workshop had concluded, many of the students expressed interest in continuing to learn about credit, students from the workshop were also interested in the center and the resources provided here and said that they would come by more often, and students felt comfortable to stay back after the workshop and continue the conversations with the presenter and the student staff of the Financial Literacy Center.
- Health is Wealth Summit Planning Meetings took place over the month of March. The FLC team went over the questions for the Alumni panel, targeting the questions to how they started their finance careers and how they faced financial challenges during their collegiate journey. We also discussed the questions for the keynote speaker and directing the questions to first generation students who are figuring out how to navigate their finances. The impact of the meeting was to solidify the questions for our guest speakers for both panel and the keynote speaker. The FLC team made sure to direct the questions that would best help the students in learning about finance careers and how to manage their finances as first-generation college students. The FLC team also talked about doing a giveaway on the keynote speaker's book the week before the summit to encourage the students to attend. This giveaway will be done through the Financial Literacy Center's Instagram.

Proposal for External Review

PROGRAM REVIEW COLLABORATIVE

A Partnership between ACUHO-I, ACUI, NASPA, NIRSA

California State University, San Bernardino
Santos Manuel Student Union

Proposal
March 3, 2025

Introduction

In response to a request from the vice president for Student Affairs at California State University, San Bernardino (CSUSB; the University), the Program Review Collaborative (PRC) proposes an external review of the Santos Manuel Student Union.

This proposal introduces the Program Review Collaborative (PRC)--an initiative of the Association of Colleges and University Housing Officers - International (ACUHO-I), the Association of College Unions International (ACUI), NASPA - Student Affairs Administrators in Higher Education (NASPA), and the National Intramural-Recreational Sports Association (NIRSA), including our approach to the project, scope of work, review team, activities, and fees for services.

About the Program Review Collaborative

The Program Review Collaborative is a joint venture between NASPA, ACUHO-I, ACUI, and NIRSA. Through the Program Review Collaborative, NASPA, ACUHO-I, ACUI, and NIRSA conduct program reviews leveraging each association's substantive research and extensive membership bases to offer an external examination of a student affairs functional area - providing expert perspective, meaningful insight, and valuable recommendations with an emphasis on foundational elements of review.

PRC reviews are designed to be applicable to departments, programs, and services regardless of institutional mission, size, function, organization, and budget. Our services are not a form of accreditation, ranking, rating, or scoring but, instead, include thorough self-assessments and external expertise to assist divisions of student affairs and functional units.

PRC review teams are composed of one NASPA employee and one or more subject matter experts with substantial experience in campus activities and student unions, campus recreation, housing and residential life, and other functional areas within student affairs/student services.

Institutions participating in PRC projects will receive the organizations' highest, professional quality in both process and substance. While these professional organizations cannot and do not warrant the impact or effect of these projects, they warrant that all services shall be of professional quality.

Scope of Work, Review Team, and Activities

Scope of Work

Effective upon execution of the signed contract, the PRC and CSUSB shall begin to work together to commence an external review of the Santos Manuel Student Union. The review is expected to focus on exploring the strengths and opportunities within the Santos Manuel Student Union; identifying key opportunities; and providing recommendations on models that would include frameworks and best practices especially related to staffing; administrative operations; programs and services; touchpoints for students; and collaborations with the broader campus community.

The PRC will work primarily with the vice president for Student Affairs and their designees for all project activities as stated within this proposal. The PRC will provide instruction, guidance, and support to the vice president for Student Affairs and their designees via email and web/telephone calls throughout all project activities.

ACUI will identify two SMEs to work with California State University, San Bernardino as members of the Review Team. The PRC will share biographical information on the subject matter experts to the California State University, San Bernardino campus contact for consideration and approval.

Activities

Introductory Project Call

The Review Team will organize an introductory project call with the vice president for Student Affairs and their designees. The purpose of this call is to formally launch the project; introduce the vice president for Student Affairs and their designees to the Review Team; establish methods of communication; identify desired project outcomes; and set a strong foundation for external review activities.

Project Participant Brief

The Review Team will draft and share a project participant brief with the vice president for Student Affairs and their designees. This document will provide a high-level overview of the review project, including its purpose and activities. The project participant brief will be shared with the vice president for Student Affairs and their designees so that it can be distributed among all project participants prior to the survey implementation and campus site visit. This brief is helpful in promoting transparency about the project and generating support towards it.

Climate Survey

The PRC will design and implement a climate survey to assess student union staff experiences with union operations and initiatives. Upon completion, the Review Team will analyze survey results, identifying key trends and actionable insights to enhance student union operations and initiatives.

Document and Data Review

The Review Team will request and review documents and data relevant to Santos Manuel Student

Union initiatives and programming prior to the campus site visit. This request is expected to include any relevant annual goal and assessment reports, student satisfaction/engagement surveys, organizational charts, previous external or self-study reviews and relevant historical documents, program manuals, and overall strategic goals of the division and the University. The purpose of reviewing reports and data is to provide additional context to the review in advance of the campus site visit, as well as inform the overall review.

Campus Site Visit

The Review Team will plan a 1.5-day visit to California State University, San Bernardino during Spring 2025. Specific dates will be mutually agreed upon by the PRC and California State University, San Bernardino. Prior to the visit, the Review Team will develop and share a draft schedule of individual and group meetings with the vice president for Student Affairs and their designees for review and feedback. The Review Team will then revise and share the final schedule with the University. The campus visit is expected to include meetings with the vice president; selected Division leaders and staff; staff who directly support the Santos Manuel Student Union; selected institutional partners; and at least two groups of students (Students who have been engaged with the Union and those who are or have been employed by the Union). The campus visit will also include a tour of the Santos Manuel Student Union.

Draft Report of Findings, Analysis, and Recommendations

After the conclusion of the campus site visit, the Review Team will analyze all data collected through the climate survey, the document and data review, and the campus site visit. This will be used to compose a draft report based on goals set in the introductory project call. The report will share the Review Team's findings, analysis, and recommendations.

Remote Discussion of Draft Report

The draft report will be delivered to the vice president for Student Affairs and their designees via email. The Review Team will schedule one web/telephone call for the purpose of discussing the draft report with the vice president for Student Affairs and their designees.

Final Report

The Review Team will consider the feedback provided in the remote discussion of the draft report in revising and finalizing the report. The final report will be shared with the vice president for Student Affairs and their designees via email. The delivery of the final report is considered the
