## Recreation & Wellness Committee

March 12, 2026 | 12:00pm

Student Chambers (SUN-3305)

ZOOM: <https://csusb.zoom.us/j/88678204840>

### MINUTES

- Members Present:** Gedeon Bulenda, Dr. Zhaojing Chen, Sean Kinnally, Trent Morgan, Diego Rendon, Sarah Sanchez
- Members Absent:** Victoria Reyes
- Staff Present:** Vilayat Del Rossi, Elizabeth Junker,
- Call to Order:** The meeting was called to order at 12:05 pm.
- Roll Call:** A verbal roll call of members was conducted. Quorum was met.
- Approval of Minutes:** M/S Rendon/Kinnally; motion to approve January 22, 2026 minutes.  
*Motion passed.*
- Open Forum:** No guests present for open forum.
- Adoption of Agenda:** M/S Kinnally/Rendon; motion to strike RW 18/26.  
*Motion passed.*
- M/S Rendon/Kinnally; motion to adopt agenda as amended.  
*Motion passed.*

### New Business

- RW 24/26 Wellness Outdoor Facility Improvement Initiative, Project Proposal by Sean Kinnally, Fiscal Impact Not to Exceed: \$200,000 Chartfield: 303808-RO001-S7100 (Action, Kinnally)

M/S Kinnally/Rendon; motion to open RW 24/26 Wellness Outdoor Facility Improvement Initiative, Project Proposal by Sean Kinnally, Fiscal Impact Not to Exceed: \$200,000 Chartfield: 303808-RO001-S7100.

The Recreation and Wellness Committee reviewed RW24-26, the Wellness Outdoor Facility Improvement Initiative, which proposed improvements to the outdoor area on the east side of the Recreation and Wellness Center. The proposal outlined development of a lit, access-controlled outdoor basketball court and pickleball/tennis court area, with the goal of expanding evening recreation opportunities, increasing use of currently underutilized space, and supporting student wellness, engagement, and intramural programming. Committee discussion also noted the possibility of a future second phase to further enhance the adjacent outdoor area.

Discussion emphasized the project's potential benefits for student health, mental well-being, belonging, retention, and campus life, as well as the value of continued partnership between SMSU and ASI. It was explained that the committee was being asked to approve up to \$100,000 from SMSU reserves toward the project, contingent upon ASI approving a matching \$100,000 contribution, for a total project budget of approximately \$200,000. Members asked questions regarding project scope, future outdoor fitness possibilities, operational hours, shade, and cost estimates. It was clarified that the initial phase would focus on the courts, lighting, and fencing, while the President's Office was separately supporting the volleyball court project.

During the discussion, members also identified the need to revise the wording of the action item so it clearly reflected that the committee was considering a conditional reserve allocation not to exceed \$100,000 from SMSU, contingent on a matching ASI contribution, rather than the full project amount being drawn from one SMSU chartfield. A motion was then made to revise the language of the item accordingly.

M/S Rendon/Kinnally; motion to amend RW 24/26 to read "Wellness Outdoor Facility Improvement Initiative Project, Conditional Reserve Allocation Not to Exceed \$100,000.00 Chartfield: 303808-RO001-S7100, Contingent on ASI Match Not to Exceed \$100,000.00 Proposal by Sean Kinnally" (Action, Kinnally).

*Motion passed.*

M/S Morgan/Rendon; motion to approve item as amended.

**ROLL CALL VOTE:**            6- In-Favor                    0- Opposed                    0-Abstentions

*Motion passed.*

RW 25/26      Student Recreation & Wellness Center (SRWC) TRX Storage Bay by Opti-Fit, Fiscal Impact Not to Exceed: \$15, 156.27, Chartfield: 660876-RO001-S7140 (Action, Kinnally)

M/S Rendon/Fejzic; motion to open RW 25/26 Student Recreation & Wellness Center (SRWC) TRX Storage Bay by Opti-Fit, Fiscal Impact Not to Exceed: \$15, 156.27, Chartfield: 660876 RO001-S7140.

The committee reviewed a proposal for a new fitness storage and training rack for the Recreation and Wellness Center. The item was brought forward in response to ongoing concerns about

equipment being stored under the staircase near the Rec entrance, which has created clutter, limited accessibility, and potential tripping and safety hazards. The proposed three-bay storage unit would provide organized storage for existing fitness equipment, help maintain clear pathways, improve equipment preservation, and add fixed TRX bands and other training features for student use. It was explained that the selected unit would be installed in front of the stair climbers, bolted to the floor for safety, and would better utilize space while making equipment more visible and accessible to patrons.

Committee discussion focused on the differences between the three quotes received, including why the recommended option was not the lowest-cost quote. Members asked questions about included components, storage capacity, duplicate equipment, installation timeline, and overall justification for selecting the \$13,778.43 option. It was clarified that the recommended three-bay unit offered the most storage capacity and best addressed the primary need of relocating equipment from under the stairs, while also providing added functionality through the TRX features. The anticipated lead time was noted as approximately six to eight weeks after purchase order processing, and members emphasized the importance of clearly explaining to the Board why this option was being recommended over the less expensive alternatives.

**ROLL CALL VOTE:**        4- In-Favor                    0- Opposed                    1- Abstention  
*Motion passed.*

RW 26/26      Coyote Pride Rec Facility (Discussion, Kinnally)

M/S Kinnally/Fejzic; motion to open RW 26/26 Coyote Pride Rec Facility.

The committee discussed a proposed wall graphic for the Recreation and Wellness Center weight room, intended to enhance branding, school pride, and overall visual appeal within the facility. The proposal, developed in collaboration with the marketing team, included a sample design and an estimated cost of approximately \$700. Members acknowledged that the gym currently lacks strong visual identity and agreed that adding graphics could improve the space and better reflect campus spirit and student engagement.

Feedback from the committee focused on the design itself, with several members expressing support for the concept but recommending revisions to improve visual impact. Suggestions included incorporating more color, adding school branding elements such as the coyote mascot, and simplifying the design for clarity. The committee agreed that additional design options should be developed before moving forward. It was determined that multiple revised concepts would be brought back at a future meeting for review and selection prior to advancing the proposal.

### **Announcements/Program Updates**

- Sean will let the committee know if ASI approves the outdoor project and \$100k contribution.

**Adjournment**

M/S Kinnally/Bulenda; motion to adjourn the meeting at 12:55pm.

## **RecWell Sport Clubs Mat (SMSU South or North) Proposal**

3/30/26

### **RecWell Committee / Santos Manuel Student Union Board of Directors**

*Proposed by: Trinity Rangel, Wrestling President/Sport Clubs Supervisor*

#### **Proposal:**

The rapid growth of the grappling clubs, Jiu-Jitsu and Wrestling, has highlighted critical safety and efficiency concerns stemming from the lack of dedicated mat space. These clubs currently rely on shared mats in the RecWell, which are not designed for frequent setup and breakdown. Additionally, these mats are used for the RecWell fitness classes, accelerating wear and tear and reducing valuable training time for club members. The absence of dedicated space and mats also limit scheduling flexibility, making it difficult for our sport clubs to practice at optimal times and increasing the likelihood of scheduling conflicts.

This proposal recommends the purchase of roll-out mats for the grappling clubs to address these issues. These mats are durable, easy to clean and maintain, and provide a safer, more appropriate training surface. They will also expand available mat space, improve scheduling flexibility, and support the continued growth of current and future sport clubs. Additionally, these mats will be a valuable resource for the Jiu-Jitsu RecWell fitness class, further enhancing their utility and impact across multiple programs.

#### **Rationale:**

Hygiene and Risk Safety: Investing in roll-out mats will significantly improve sanitation by providing a dedicated surface that is easier to clean and maintain. This will reduce the risk of skin infections, such as staph, that can arise from shared or improperly sanitized mats. Improved hygiene standards not only protect student health but also reduce institutional liability associated with preventable injuries and infections.

Program Growth and Retention: A clean, professional, and well-equipped training environment encourages greater student involvement. Upgraded facilities make programs more appealing to new members while helping retain current participants by improving overall training experience. Enhanced equipment and dedicated space support the continued growth of existing grappling clubs and create opportunities to recruit new members.

Improved Safety: The risk of injury is heightened when students lack adequate space to train. The number of mats in the Recreational & Wellness Center is insufficient for the number of participants in these clubs, further increasing the risk of injury. The roll-out mats will provide a safer training surface that better supports wrestling techniques that are difficult to perform safely on the Zebra mats due to their harder landing surface. Additionally, increased mat availability will ensure adequate training space for all participants.

Enhanced Aesthetic Appeal and Institutional Reputation: Access to high-quality training facilities allows students to better prepare for competitions and represent the university at a higher level. A dedicated mat space will significantly enhance team morale and foster school spirit among students. Providing a unified and professional training environment will encourage

greater participation, commitment, and pride in representing the university. This initiative marks a meaningful upgrade from the current arrangements used by our sports clubs. Collectively, these clubs serve approximately 50 students who consistently dedicate their time and effort to training, making this investment both impactful and well deserved.

Mats currently being used for practices (22):

**Budget Impact:**

- The total cost of the project is not to exceed **\$28,000**
- Funding Source: Local Reserves
- Chartfield: 660876-RO001-S7100

**Timeline:**

Once approved, plan lead time for delivery.
